Grape Seed Extract

Plus **Turmeric Extract**

Double Powers "Cancer fighting substances"

Grape Seed Extract Plus Turmeric Extract
Grape Seed Extract mixed with Turmeric Extract
Double Powers "Cancer fighting substances"

Grape Seed Extract

Plus Turmeric Extract

Double Powers “Cancer fighting substances”

Many global researches show that Grape Seed Extract is definitely recommended as a food supplement to those patients with cancers. At the cell level, the Grape Seed Extract works against the free radicals, which are dangerous to DNA and genes. The Grape Seed Extract can restrict the growth of a breast cancer as much as 72% and make the cancer cells kill themselves as high as 33%. **Those women taking the Grape Seed Extract are likely to have a breast cancer at as little as 34% of those without it. Moreover, taking the Grape Seed Extract can also prevent a prostate cancer.**

To make it better, taking the Grape Seed Extract will also help stop the growing of those tiny blood vessels nourishing cancer cells (Anti-Angiogenesis). So, those cells will not be fed. Besides, the Grape Seed Extract has the power to hinder the cells of a pancreatic cancer including slowing down the breaking up of the collagen in the tissues resulting in the ends of the spreads of the cancer cells to the other organs.

Turmeric Extract

Turmeric gives Curcumin, an anti-oxidant. It works against many kinds of cancers in the animals in the labs and slows down the growth and the spreading of many cancer cells in those animals.

A researcher finds that Turmeric Extract when consumed can prevent the start of a cancer and stop the growth of many kinds of cancers such as Esophageal cancer, Oral cancer, Colon cancer, Stomach cancer, Breast cancer and Skin cancer etc. The Curcumin from the Turmeric Extract makes a tumor shrink. The Curcumin can be absorbed at the furthest part of the large intestine and spread through all the intestine's cancer tissues resulting in a lot of restriction in the growth of the cancer cells. It is highly recommended for Colon cancer and Anal cancer.

Turmeric Extract can be consumed to prevent the start of cancer cells and to stop the growth of many kinds of cancer cells.
