Mushi

**In the medical field,
this is the best cancer solution**

Lingzhi is at the present a part of American medical formula including other ones in Europe. It is an alternative medicine to cure against cancers, high blood pressure and high blood fat. It contains both organic Germanium and Beta glucan including 252 types of Photochemistry. Lingzhi is globally accepted as **an amazing mushroom even the Japanese ministry of Public Health permitted it as an alternative medicine for a cancer.**

An important substance found in Lingzhi mushroom is Organic Germanium, whose quality is to encourage the work of the large white blood cells wakening the all-side immune system, adding the oxygen in the cells, making the body produce Grammar Interferon (IFN-g), the protein the body used to eliminate cancer cells, and reducing any side effects from a chemical therapy or the irradiation. It also produces the nonspecific immune system including working against viruses especially AIDS. In short, Lingzhi mushroom is the best for the patients suffering from cancers or AIDS.

Shiitake mushroom (Hed Hom) it contains a lot of Amino acid and many vitamins including several natural minerals, Extract 1,3. Beta glucan from Shiitake mushroom is good at stopping several viruses'

division, including HIV and Herpes zoster. It also has Lentinan, which is good for curing a tumor and lowering cholesterol as well as high blood pressure. When given Lentinan with a chemical therapy, the body's cells will not be destroyed.

Shiitake mushroom can also stimulate Interferon to stop several viruses' division including HIV. There is a research to report a patient with the last stage of Stomach cancer, Colon cancer and Breast cancer when given Lentinan will live longer.

Mitake mushroom the king of mushroom, is very best for preventing high blood pressure and cancers, strengthening the immune system, cleaning the poison in the liver and the lung. Mitake mushroom has the power to stop a tumor, reducing Cholesterol and Triglyceride.

Beta glucan a polysaccharide, found in Lingzhi mushroom. Shiitake and Mitake mushroom are good at stimulating the immune system and very effective against cancers. It also stimulates the large macrophage to get rid of foreign substances and help release several Cytokines as the immune substances to fight against Bacteria, Viruses, AIDS, Herpes zoster and etc.
