

Thaidham Allianze Ltd.

The Innovation of Health & Beauty

*Feel Good
&
Look Good*

Thaidham Allianze is an innovative health care company focusing on anti-aging and reverse aging concept in the area of health and beauty. The company has been established since 2005 by Dr. Ariya Sarikaphuti, a pharmacist with PhD in Anti-Aging and Regenerative Medicine degree, and Ms. Jarunee Desneiges, an all-time leading actress, and a group of leading physicians and pharmacists in Thailand. We have more than 15 years of experiences in nutraceutical and cosmeceutical products.

Our high quality supplementary and cosmeceutical products are formulated by leading physician, pharmacist, and nutritionist teams and produced by GMP standard factories. The product ranges are anti-aging, anti-obesity, oral cosmetics, health promotion, preventive medicine, and cosmeceutical products. We have received more than 10 research funds from NIA (National Innovation Agency), Thailand and we are listed in 46 leading innovative companies in Thailand for health & beauty products.

Research based Antidiabetic Herbs

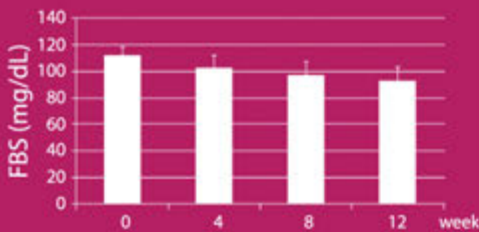

A research based extract of Mulberry Fruit Extract from the school of anti-aging and regenerative medicine, Mae Fah Laung university, Thailand together with Mulberry Leaf Extract in one tablet aims for normalizing blood sugar level, improve insulin resistant, improve pancreatic function, and aid in dyslipidemia. The product could also prevent blood sugar rising after meal by inhibiting disaccharidase activities in small intestine.

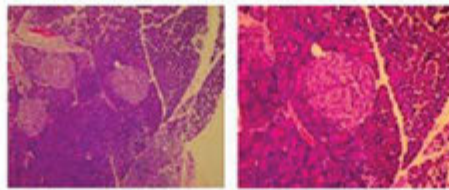

Indications :

- Reduces blood sugar in prediabetes
- Normalizes blood sugar level in healthy subjects and prediabetes
- Increases insulin sensitivity
- Improves pancreatic pathology and function in prediabetes
- Aids in dyslipidemia
- Improves eyesight and visual equity
- Antioxidant

Antidiabetic Effects of *Morus alba L.*

Preventive effects of *Morus alba L.* anthocyanins on diabetes in Zucker diabetic fatty rats. *Experimental and Therapeutic Medicine* 6 : 689-695, 201

Pancreatic sections from ZDF rats treated with 250 mg/kg showed that there were fewer abnormal morphological features and fewer degenerated islets. The islets had a regular shape with well-defined boundaries

Preventive effects of *Morus alba L.* anthocyanins on diabetes in Zucker diabetic fatty rats. *Experimental and Therapeutic Medicine* 6 : 689-695, 201

Ingredients :

Mulberry Fruit Extract and Mulberry Leaf Extract

EFFECTS OF FREEZE DRIED MULBERRY ON FBS IN PREDIABETIC PATIENT

250 mg/kg. ANC-treated ZDF Rats

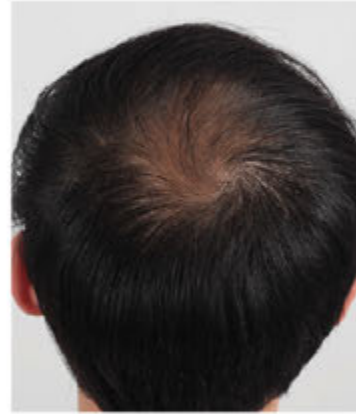

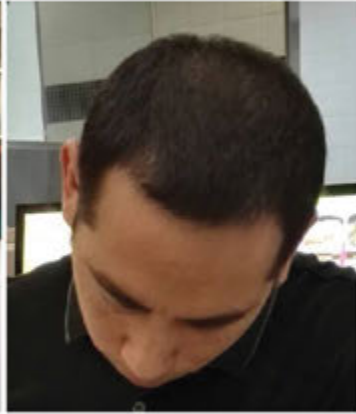

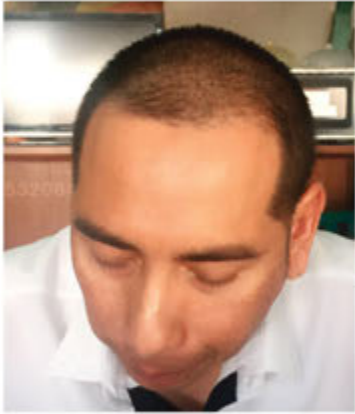

Physiological Actions of Mulberry Leaf

Inhibitory effects of extractives from leaves of *Morus alba L.* on human and rat small intestinal disaccharidase activity
Significantly decrease in membrane cholesterol levels in type II diabetic patient

A hair grow supplementary product comprising of Pumpkin Seed Powder, Banana Leaf Powder, Zinc Amino Acid Chelate, and Selenium Amino Acid Chelate aims for stimulating new hair growth, preventing hair loss, and hair thinning. The mechanisms are promoting Anagen phase, shortening Telogen phase, and preventing action of 5-alpha reductase to inhibit the formation of dihydrotestosterone to prevent hair loss and hair thinning.

Ingredients :

Pumpkin Seed Powder

Prevents action of 5-alpha reductase to inhibit the formation of DHT to prevent hair loss and hair thinning.

Banana Leaf Powder

Promotes Anagen phase while shortening Telogen phase. Prevents action of 5-alpha reductase to inhibit the formation of DHT to prevent hair loss and hair thinning.

Zinc Amino Acid Chelate

Important mineral for hair structure formation. Prevents hair breakage and forms stronger hair.

Selenium Amino Acid Chelate

Prevents hair loss, reduces dandruff, and stimulates hair growth.

A nutritive cosmetic product that lengthens, strengthens, and helps stimulating faster growth of eyelashes. The formula comprises of varieties of natural nutrients that promote healthy, consistent growth. Its three main functions are stimulating growth, nourishing eyelashes, and promoting microcirculation in the roots area. The main active ingredients are natural extract of Ginseng, *Ginkgo biloba*, and *Kigelia africana*.

Ingredients :

Ginseng

Stimulates microcirculation around roots area, promotes growth, and strengthens lashes.

Ginkgo biloba

Stimulates microcirculation in the roots area.

Kigelia africana

prevents loss of eyelashes by inhibiting the certain enzymes that destroy the roots. It also has DHT (Dihydrotestosterone) blocker property to prevent shrinking eyelashes.
